

DUnavin

Cucumber Long

Quality Meets Speed

DUnavin is a strong generative, early, and fast-to-produce variety, ideal for short-crop production while achieving high yields.

DUnavin has a well-balanced plant type which translates into good production speed, vigor, and strength. These attributes make it a versatile variety suitable for both Low Wire (LW) and High Wire (HW) systems. It performs the best during the Spring, Summer, and Early Fall plantings.

DATA & INSIGHTS

Cultivation System	Low Wire/High Wire
Plant Type	Strong generative, good against abortion
Gradings	S: 29%, M: 63%, L: 8%
High Resistance (HR)	CGMMV, PM

Plant Schedule LW

J	F	M	A	M	J	J	A	S	O	N	D

Plant Schedule HW

J	F	M	A	M	J	J	A	S	O	N	D

Consistently High Yields
And Good Grading

Good Fruit Quality

HR PM and CGMMV

Well Balanced Plant Type

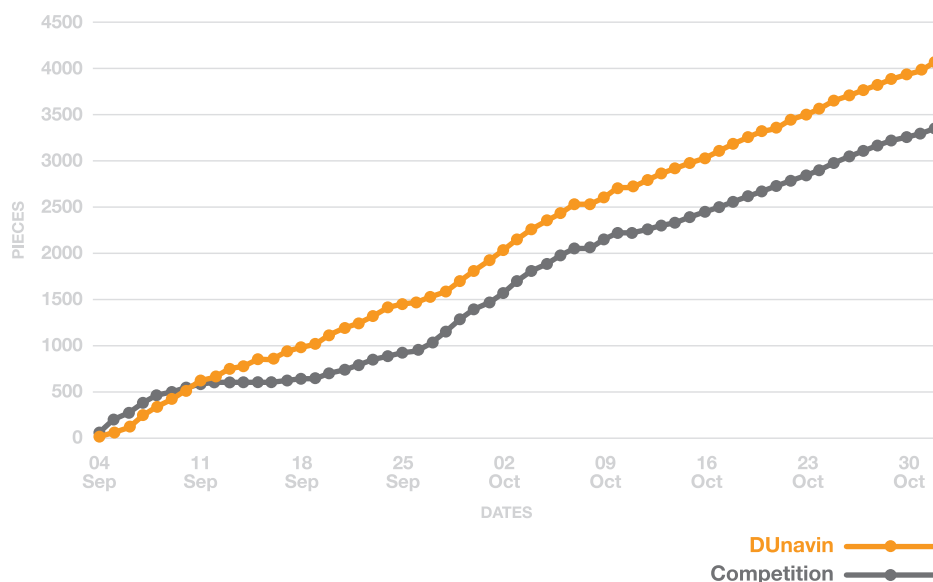

Early to Mature

Fast Lateral Transition

More Production. Faster.

Accumulated Mediums
