Climono (T8C15533) - NEW

Large tomato-on-the-vine hybrid with a high level of fruit quality and mildew resistance

- Good setting ability with vigorous flower development
- Produces high-quality clusters with consistent fruit size and ripening speed
- Yield potential matches or outyields current commercial varieties available

TECHNICAL DATA	
Plant characteristics	Strong plant with good generative growth
Approx. weight at trial (g)	150
Disease resistance	HR: Ff: A-E / Fol: 0-1 / For / TMV:0 / ToMV: 0-2 IR: On

Classification: Not For Distribution

The Syngenta logo is a registered trademark of a Syngenta Group Company.

Francelia - NEW

Offers a compact crop type that leads to faster coloring of fruits and early maturity

- Strong ability for setting in hot conditions
- Plant power all season
- Uniformity and stability of AFW and shape
- Maintains blocky shape even under stress conditions
- Early-maturing variety

TECHNICAL DATA	
Plant characteristics	Vigorous, stable plant
Approx. size at trial	XL - XXL
Disease resistance	HR: Tm: 0-3

Classification: Not For Distribution

©2020 Syngenta. Some or all of the varieties may be protected under one or more of the following: Plant Variety Protection, United States Plant Patents and/or Utility Patents and may not be propagated or reproduced without authorization.
